Highest technical standards
Service provided by strong and recognisable partner in the peering industry with over 25 years of experience

High security
AMS-IX is ISO 27001 certified. IXaaS platform is equipped with security controls to prevent know and unknown threats

About AMS-IX

AMS-IX is a neutral, member-based Association, that operates multiple interconnection platforms around the world. Our leading platform in Amsterdam, has been playing a crucial role at the core of the internet for more than 25 years and is one of the largest hubs for internet traffic exchange in the world.

Connecting to AMS-IX, ensures customers such as internet service providers, telecom companies or cloud providers that their global IP traffic is routed in an efficient, fast, secure, stable and cost-effective way. This allows them to offer low latency and engaging online experiences for end-users.
